

FIRE RISK ASSESSMENT

LEGAL REQUIREMENT

The Regulatory Reform (Fire Safety) Order 2005 requires the responsible person of a non-domestic premises to carry out a fire risk assessment.

WHEN IS IT NEEDED?

You must keep a written record of your fire risk assessment if your business employs 5 or more people.

CONSEQUENCES

Failure to follow fire safety regulations could end in fines and/or prison sentences.

A fire risk assessment identifies what is required in your premises to keep people safe and prevent fire.

It is a legal requirement to carry out a fire risk assessment for any non-domestic premises, sleeping accommodation and premises with an alcohol license.

A fire risk assessment will ensure you:

- 1 Identify the fire hazards.
- 2 Identify people at risk.
- 3 Evaluate, remove or reduce the risks.
- 4 Record your findings, prepare an emergency plan and provide training.
- 5 Review and update the fire risk assessment regularly.
