

Excel Environ Open Racks (OR)

Excel is a world-class premium performance end-to-end infrastructure solution – designed, manufactured, supported and delivered, without compromise.

The Environ OR Series of open racks are designed for the mounting of patch panels and networking equipment in secure environments or in locations where space does not allow for the use of a standard rack. Each frame is constructed from rigid aluminium and supported by heavy duty top and base cross members which enable static load bearing of up to 1500kg.

- 2 post rigid aluminium construction
- Available in 3 heights: 42U, 48U and 52U
- Available in Black only
- 19" profiles marked with U height positions
- Available with adjustable depth profiles
- Compatible high density cable management
- Simple Bolt Together Assembly
- 25 Year System Warranty Available

Designed with strength, ease of use, security and aesthetics in mind, the OR Series of racks are extremely flexible and easy to install. Available as a flat pack the OR option is flexible to suit any requirements where space is limited.

A range of OR Series cable management solutions are designed for standard through to high density cable management within enterprise and data centre environments. The vertical designs are specifically relevant where the use of angled patch panels, or ports is preferred due to the required port density.

A full range of Excel accessories are available to complete cable or equipment installation from shelving through to ventilation and power distribution units.
